Dear Parents and Carers,

Update re Power Supply to the School

I wanted to get in touch again about the problems with the power supply in school, but I'm afraid I don't have much news for you at the moment.

When the engineers came to the school a couple of weeks ago they discovered that more work was needed than just replacing the meter, so were unable to do anything to fix the problem. Croydon Council are trying to arrange for this work to be done as quickly as possible but are struggling to get the various companies involved to work together to make the arrangements.

I've made it very clear that we don't want any more disruptions to the children's education and am hoping that the Council can arrange for the work to be done during the half term break. In the meantime, we will continue to use the generator for our power supply.

Thank you again for your patience and support over the last few weeks and as soon as I have more information I will let you know.

Yours faithfully

Guy Fairbairn
Headteacher
